

Record of supplier assessment sheet and performance allows easy identification of suitable supplier for pre-production planning, ensuring efficient capacity utilisation and lead-time management.

[illegible]

Rating of suppliers on quality and delivery is possible (even order wise). Suppliers scoring less than benchmark is de-listed from approved suppliers list.

Supplier Rating											
Name of the Supplier		Product/Service Description			Location		Contact		Rating		
No.	Supplier Name	Product/Service Description	Location	Contact	Supplier Rating	Quality	Price	Delivery	Customer Satisfaction	Total	Average
1	ABC Corp.	Product X	Location A	Contact A	4.5	4.8	4.2	4.6	4.7	4.5	4.5
2	XYZ Inc.	Product Y	Location B	Contact B	4.2	4.5	4.0	4.3	4.4	4.3	4.3
3	DEF Ltd.	Product Z	Location C	Contact C	4.0	4.3	3.8	4.1	4.2	4.1	4.1

Provides you with the details required about an inquiry, sampling upto production and to monitor different vendors on a inquiry.

REACH Merchandising Manager is tailored to ensure your competitiveness in the sewn product manufacturing and merchandising marketplace where trends are created overnight, fashions change quickly and without warning.

The manufacturing of apparel is a “make to order” manufacturing environment with innumerable steps. Production is outsourced in much of the industry. The sourcing supply chain varies from style to style, season to season and even the same style within a season. Even if the steps are the same, the groupings of steps into multiple tiers can be different depending on individual supplier capabilities and capacity . Consequently, the same style can have a different multi-tier supply chain for different seasons.

Shown below is the typical number of events that need close monitoring in order to identify and address delays to ensure on time delivery:

	High	Low
Seasons	12 or more	4
Apparel Sub-Divisions	200	50
Items per Sub-Division	30	10
Process Steps	300	300
Events to monitor	21,600,000	600,000

REACH Merchandising Manager streamlines sampling, merchandising, production and quality processes, integrating customer service with optimal utilization of resources across the enterprise. REACH Merchandising Manager allows you to automate a large number of routine events without human involvement. Most importantly, the software can prompt you to intervene when exceptional events demand it. In short, your merchandising value chain becomes more efficient, responsive and profitable.

REACH Merchandising Manager will enable you to 'manage your company by exception' directing the vast majority of the company's human attention to the out-of-the ordinary business situations that present the most risk and the greatest opportunity.

"REACH Merchandising Manager has helped us streamline our processes and hence the information flow. This has been a great help."

**Anoop Puri**  
Director, SACHIK Home Textiles

"We have operations in multiple countries and RMM has helped our merchandisers, quality controllers and other work groups seamlessly work with one another and with our suppliers and buyers".

**Yatish Moncourt**  
Director, Francis Wacziarg

REACH Technologies, a leader in Business Technology Solutions for the global soft goods industry, offers pre-packaged products, custom solutions, Business Process Outsourcing (BPO), consulting services and offshore development facilities.

REACH solutions enable stake holders across the soft goods value chain work collaboratively more effectively and efficiently.

REACH solutions impact the creme de la creme of companies, academic and research institutions including Calvin Klein, DIESEL, GAP, Levi's, Marks & Spencer, NIKE, TESCO, United Colors of Benetton, Tommy Hilfinger, Wal Mart, Zodiac Clothing, Madura Garments, Arvind Clothing, Gokaldas, United Nations Conference on Trade and Development, Apparel Training and Design Centre, Apparel Export Promotion Council, Clothing Manufacturers Association of India, National Institute of Fashion Technology, Regional Vocational Training Institute etc.

REACH CAD is the software tool for pattern engineering, grading and marker planning for minimizing fabric consumption and supplying the sewing sections with accurate cut parts.

REACH CAD incorporates styling and functional features like dart intake, pleats turning and balance, grain line adjustments, flipping of patterns, pitch point placements, drill marking, size and order representation, fabric width adjustment, cutting of checks, plaids and stripes, garment balance, n-way size combinations, seam allowance adjustments, grading, nesting, etc. with user-friendly controls and applications

is the proven industry standard Cut Planning tool that uses techniques in combinatorial optimization and decision support to let you save significant quantities of fabric.

Finding the optimal allocation of plies and fabric rolls for a given set of style / colour quantities present a challenge to the best cut planners. The number of variables and possible solutions exceed normal human abilities but not that of REACH Cut Planner.

is a multipurpose software for design, sales, sampling and printing departments of apparel, textile, leather interior and home furnishing industries.

REACH Fashion Studio does 3D storyboard and cataloguing, texture mapping, colour reduction and cleaning, design and repeat, colourways, screens for printing and colour communication using pantone.

**REACH Merchandising Manager**  
Manage your supply chain efficiently.  
Cut Costs. Cut Cycle Times.

REACH  
Technologies

enabling collaborative partnerships across the soft goods value chain
